Summary	
	Senior Software Test Automation Engineer, polyglot (English, Spanish, and Portuguese, and learning German - A2, Italian - A1 & French - A1). QA Engineer with over 22 years of experience in quality area, and 12 years of these on IT Software projects, 6 years to engineering and management of Test Automations, Test plannings, Risks management, and microservices integration assessments. I did part in more than 100 technological projects and solution go-lives with my collaborations, between interregional and global coverages on any Company areas like: Medical, Banking, Logistics, e-commerce, and Supply Chain. A curious think is that I already had 2 experiences working with projects into the VW Group together with Diconium's teams.
