SENIOR QA ENGINEER – SENIOR TEST ENGINEER

SOFTWARE TEST AUTOMATION • SQA • CI/CD • WEB & MOBILE TESTING • SDTE

PROFESSIONAL SUMMARY

Senior Quality Assurance and Test Automation Engineer with extensive experience in software quality engineering, automation and quality leadership. Strong background in frontend (web and mobile), integration (REST API microservices and Kafka), performance tests, regression tests, and end-to-end testing, with hands-on experience in Frameworks: Robot, Selenium, Cypress, and Playwright with languages: JavaScript, Python, Java and CI/CD QA's pipelines settings. Experienced in test strategy, planning, risk assessment, bug tracking, Agile Scrum, troubleshooting and mentoring QA engineers.

COMPANY

SWISS POST – Spice-P. IT Lisbon
Campus - Portugal

Areas: Customs Clearance ERP, SAP,
Microservices, Kafka, Transport
Logistics systemas.

PROFESSIONAL EXPERIENCE

Senior Test Engineer | QA Manager

Apr 2023 – Present

• Web Testing	• Robot Framework	• Selenium	• CI/CD Jenkins
• Mobile Testing	• RPA.Desktop, Browser & Requests libraries	• Playwright	• GitHub actions
• Jira Xray	• Jmeter Performance	• Appium	• Python JavaScript
	• Kafka-perf		• Confluence API

- Management about QA strategies, PI Planning's, Test Automation tools selections, QA mentoring, Risk-based strategies, Go-lives review assessments, and AI-tools assessments.
- Design and maintain automated regressions (web & systems) and integration (API & Kafka) tests for international Customs Clearance and Transport/logistics systems.
- Develop automation tests solutions with Python and JavaScript, Robot Framework, Playwright and Selenium to integrate quality checks into CI/CD pipelines/infrastructures: Jenkins and/or GitHub Actions.
- Create test strategies, test plans, risk assessments and regression approaches for business-critical systems with AI-driven tools.
- Bug tracking, management, and investigation of failures, supporting troubleshooting, root-cause analysis and continuous quality improvement.
- Mentor QA engineers and collaborate with distributed Agile teams using Test Automation, Jira, Xray, Confluence, Git and Bitbucket.

AUBAY S.A. Consultancy EUROPE-
Portugal

Client account: VW Group

Volkswagen

Areas: Vehicle e-commerce ERP,
Microservices, and Logistics
systems.

Senior Test Engineer | QA Mentor

Mar 2022 – Apr 2023

• Web Testing	• Cypress Framework	• Postman	• CI/CD Jenkins
• API Testing	• Allure Reports	• JavaScript	• GitHub actions
